

Environmetrics
social and market research

Tab+Table

Data processing and analysis

accurate | efficient | quick | cost-effective

Use our **Tab+Table** service to turn your completed questionnaires into useful data.

Our **Tab+Table** service includes:

- Coding open-ended questions
- Data entry
- Tables – cross-tabulated by standard breaks
- Data file.

We use Surveycraft, the industry standard software, to create flexible data files.

- Data entry is accurate and efficient
- Detailed tables are easy to read
- The data file is compatible with common programs like Excel and SPSS — you have a permanent record and can do further analysis

The Environmetrics difference —

- Intelligent coding and categories
- Thoughtful cross-analysis
- Quick turn-around
- Competitive prices
